Series overview

Océ Arizona Series UV flatbed printers

Océ Arizona Series is the best-selling UV flatbed printer family in the world.

Every model uses UV curable inks and Océ VariaDot® imaging technology to deliver near-photographic image quality. Each is built on a true flatbed architecture to print on almost any rigid media or object, and each offers a Roll Media option for printing onto flexible materials. A White Ink option is available on select models. The Océ Arizona Series is the most honored with 25 industry awards to date including seven DPI/SGIA Product of the Year awards and a Viscom Innovation award.

Available models	Extra large table, high-volume production Océ Arizona 550 XT	Standard size table, high-volume production Océ Arizona 550 GT
Rigid media size	2.50m x 3.05m (98.4" x 120")	1.25 m x 2.50 m (49" x 98.4")
Rigid media thickness	50.8 mm (2")	50.8 mm (2")
Océ VariaDot printing technology	6 to 42 picoliter droplets, 636 nozzles, two printheads/color, dual row design	6 to 42 picoliter droplets, 636 nozzles, two printheads/color, dual row design
Express print speed	65.9 m²/hr (709 ft²/hr)	61.0 m²/hr (657 ft²/hr)
Production print speed	42.9 m²/hr (462 ft²/hr)	40.2 m²/hr (433 ft²/hr)
Quality print speed	30.2 m²/hr (325 ft²/hr)	28.4 m²/hr (306 ft²/hr)
Fine Art print speed	24.0 m²/hr (259 ft²/hr)	22.7 m²/hr (244 ft²/hr)
High Definition print speed	Not available	Not available
UV curing technology	171 mm, high output/low heat UV arc lamp with integrated shutter/reflector	171 mm, high output/low heat UV arc lamp with integrated shutter/reflector
Roll Media	Available option, up to 2.2 m (86.6")	Available option, up to 2.2 m (86.6")
White Ink	Available option	Available option
Post-installation options	Roll Media, White Ink options	Roll Media, White Ink options

Innovate your business

With an Océ Arizona Series printer, you can print on irregularly shaped objects or non-square media, heavy substrates such as glass, or materials that have an uneven surface such as wood. Add value to a metal cookie box, a DVD, a piece of furniture, a pane of architectural glass, a sheet of painted aluminum, wood, MDF, or even a full-sized garage door. Using the White Ink option to its full effect can have a very positive impact on the margins that you can demand of your customers. The Océ Arizona Series offers unparalleled versatility if you're serious about innovation and higher margin printing applications.

| Extra large table, mid-volume production	Standard sized table, mid-volume production	Standard sized table, low-volume production

Océ Partners

Printing for Professionals

Creating global leadership in printing

Canon and Océ have joined forces to create the global leader in the printing industry. For our customers this combines Canon and Océ technology with the support of the Océ direct sales and service organizations. Look to the new Canon-Océ combination for:

- Enterprise printing in the office and corporate printroom
- Large format printing of technical documentation, signage and display graphics
- Production printing for marketing service bureaus and graphic arts
- Business Services for document process outsourcing
